

## Wolverine Clothing

**Task – Day 1:** You have been assigned to buy clothing to give away to the students at Crystal Park. Mrs. Kruse has given you a budget of \$600. From the catalogue below, buy clothing that could be given away, keeping in mind that there are some items that are more desirable than others. But, when you spend money on the more expensive items, fewer students get a give-a-way. In other words, make sure you have a selection of desirable and less expensive items. You'll need to be able to explain the purchases you made.

**Task – Day 2:** Chickadee Cresting, the company we get our clothing from, is offering us a discount on our clothing if we spend \$1,000. Here's is the deal:

- If you buy 1-4 pieces of an item, you will pay the full price.
- If you buy 5-9 pieces of an item, you get  $\frac{1}{10}$  off the original price of each item.
- If you buy 10-14 pieces of an item, you get  $\frac{1}{4}$  off the original price of each item.
- If you buy more than 15 pieces of an item, you get  $\frac{1}{3}$  off the original price of each item.
- There is one exception, if you buy the \$9.00 toque or the \$9.00 mittens, you get  $\frac{1}{3}$  off the original price of each item if you buy 10 or more.

Come up with a proposal that you could submit to Mrs. Kruse of how she should spend \$1,000 in clothing that she would use as give-a-ways, keeping in mind what we talked about last time. Please list what you'll buy and your rationale for these purchases.
